

Tim Williamsen, current PCA board member, served as information technology manager for the City of Petaluma for nearly 20 years.

He retired from the City of Petaluma in April of 2020. He previously owned his own system integrator business, in addition to holding positions as senior engineer for Bechtel Corporation and project engineer for the Mare Island Naval Shipyard.

As a member of the PCA Board since 2008, as a City rep, Williamsen has been recognized for Leadership in Management of Information Technology by Best of California, Digital Government while IT Manager and recipient of several MISAC (Municipal IS Association of Calif) Excellence in IT Awards.

Williamsen, a professional engineer and former licensed electrical contractor, earned his B.S. in electrical engineering from Washington State University.
